

## OPERATIONS SITE SUPERINTENDENT

Location: North, Vancouver BC

Neptune Terminals plays an integral role in Canada's economy by helping to move Canadian steelmaking coal and potash to global markets in Asia, South America and Europe. Neptune Terminals is one of the largest multi-product bulk terminals in North America with unloading, storage and three berths for deep sea vessel loading. More information on the company, its operations and commitments to safety, environment and community are available at [www.neptuneterminals.com](http://www.neptuneterminals.com).

The Operations Site Superintendent demonstrates excellence in the supervision and direction of the unionized foremen and hourly employees for all operational activities. The Site Superintendent actively audits and reviews terminal operations to ensure safety, environmental and operating standards are adhered to.

The ideal candidate has excellent organization skills, with the ability to manage multiple, conflicting priorities and have the demonstrated ability to lead in a unionized environment. Strong communication skills and the ability to maintain all standards for safe, efficient and effective operations are essential.

Neptune is a leading employer on the waterfront and prioritizes care for employees and community members, health and safety, and environmental protection. We offer competitive compensation relative to many industries, and a strong benefits package. This role will appeal to maintenance professionals who enjoy working with very large industrial equipment in an operating environment.

Candidates will undergo a thorough employment assessment including formalized testing, interviews and reference checks. The successful applicant will also be required, as a condition of employment, to undergo an independent Company sponsored medical examination.
